Introduction

The Edge will work with many different tag printers and tag types. This document outlines the configuration settings recommend for each one; your needs may vary slightly.

Style	Visual
Dumbbell	
String	
String w/companion (an Edge proprietary tag allowing you to print two tags for each item)	

To access printer configuration, go to **Administrative ► Configuration** and scroll down to the tag printer to be configured.

Citizen CLP 2001 (String)

Tag Printer 1 Settings
