Stones Report

Overview

The **Stones** report provides a concise method of viewing selected stones along with their key attributes. It was designed to give you a quick way to view stone inventory. Stones can be grouped and sorted by their type as well as their characteristics such as weight, shape, and clarity.

Working with the Report

To run the **Stones** report:

1. Click **Reports > Inventory > Stones**. The **Stone Report** filter will appear.

Stones Report					
Stones Options	3				
Type Item Filter Weight Length Width Depth	Min Max	Lab [Shape [~	
Color

Fresets				UK	Cancel

Filters and settings on the General tab include:

19 October 2022	TIP-2022-181 ©2022 Abbott Jewelry Systems, Inc.	1
Dimensions	Filter by the stone's weight, length, width, or depth.	
Shape	Filter by the stone's shape.	
Item Filter	Opens an Item Filter where you can define criteria for which items to include stone data from such as stock, memo, in stock, sold, etc.	
Lab	Filter by the stone's lab.	
Туре	Select the types of stones to include. Note that the other available filters and options on this form will vary depending on the stone type(s) selected.	

Coloration Filter by the stone's characteristics.

Match Stones By
PositionChoose whether to only search Primary Stone, Primary and/or Secondary
Stone, or Any Stone on the item.

Single Stones Only (Stone Count = 1) Use this checkbox to only search single stones, i.e., stone count is 1.

Settings on the **Options** tab include:

Show Cost/Show Price	Display the cost and/or price of the stone.
Show Item Description	Include the description of the item that the stone is from.
Group/Sort By	This report automatically groups by the stone type. Select additional grouping options here. Additionally, like all reports, you can drag and drop to rearrange these options to change how the report will sort. Even if a grouper is not checked, it will still be honored for the sort. For example, dragging Stone Weight to the top of this list would sort the stones by their weight.

2. Set your filters and options, then click **OK** to generate the report.
